## CONDITIONS GROW MORE TERRIBLE

### HIGH WINDS FAN THE FIRES INTO FURNACES. FERRY BUILDING DOONED. HONOLULU SLIDING INTO THE SEA

#### Hunting for the Dead Reveals Hundreds of Bodies in the Ruins. More Than 200 Bodies Found

##### Soldiers Shoot Down a Band of Robbers who Attempt to Loot the U. S. Mint-- San Diego Safe and no Tidal Wave--Mendicino and Lake Counties Suffer Severely-- The Entire Nation Pouring in aid to the Stricken Districts

SAN FRANCISCO, April 20, 11 p. m.—The good news of the early part of the day has been shattered with a renewal of the worst feature of the entire calamity. Tonight a high wind has sprung up from the southwest. This is so strong that the sea wall is being shattered and it now seems that the entire shipping front of this city is doomed to utter destruction. In many places the sea wall has broken away and the waves are making their way into the built land. It is the worst night since the fire started. Districts that were supposed to be in hand and the fires quenched have broken out afresh and it is now feared that work of the citizens and firemen was for naught. The wind is sweeping the flames in sheets across blocks and there will not be a building left in its path.

#### Walls Falling

With the high wind there is additional wreckage. The walls that stood are being blown to the ground, and Market street that was passable is now so filled with wreckage that it is impossible for man or conveyance to pass. All approaches to the ferry are cut off and it is feared that ferry service will have to be discontinued. General Castor has ordered troops to guard the Union Ferry in hopes of saving it. The water front Emergency Hospital is doomed and patients are being removed. The sea is running so high that it is almost impossible to make a landing, and the weakened conditions of the piling renders it unsafe for the ferry boats. Service will be abandoned. The Postal Telegraph Company is making ready to leave the ferry building.

#### Honolulu Doomed

SAN FRANCISCO, April 20, 11 p. m. Cablegrams received via China state that the Sandwich Islands have suffered severely from an earthquake and that Honolulu is a doomed city. The city proper is slipping into the sea. The volcanos on the islands are threatening complete destruction.

#### No Damage

##### Gathering the Dead

SAN FRANCISCO, April 20.—The report of the destruction of this city by earthquake and fire is without foundation. There was but a slight quake and no fire. The city is not damaged and no lives were lost.

SAN FRANCISCO, April 20.—Today the first effort was made to take care of the dead. Wrecked buildings were searched and the results are appalling. Dead bodies were found in every part of ruins. Hundreds of them will be forever unknown, as they are charred and crushed beyond recognition. In a stone hotel at Fifth and Mina streets 75 bodies were recovered with fifty more in the building. 150 lives lost in the Brunswick hotel. Other small lodging houses are giving up their dead and the result is beyond calculation. Dead bodies have been found in every district of the destroyed city.

#### Buildings Saved

SAN FRANCISCO, April 20.—The Great Western Smelting Company has saved its buildings. The Mutual Electric Lighting Companies plant stands intact. Mills College at San

Jose is not injured. Only one building stands between Stewart and 2nd street. San Pablo Hotel between Mission and 3d street street stands and is doing business. The old tower at 1st and Howard went down today. It was a landmark for forty years. The Risdon Iron Works has been destroyed.

#### Killed the Looters

SAN FRANCISCO, April 20.—A party bent on looting the United States Mint consisting of about fifty desperate men, made an attempt to force their way into the building. A squad of infantry were called and the robbers fired upon. Fourteen of them were killed outright and others wounded. One policeman who exercised too much authority was bayoneted and will die. Several other parties caught in the act of robbing were killed by the militia. The policeman have the same orders to shoot on sight anyone caught stealing or in the act of crime. There is no time for arrests.

#### Towns Ruined

Word received from the Northern section of California brings terrible tidings. In Lake and Mendicino counties every town on the line has suffered and in many cases the small towns are wrecked and destitution prevails.

#### Refuges in Reno

RENO, April 20.—At 9 o'clock this evening a train came in from the West. 400 refugees from the fire were among the arrivals. They are being cared for by the citizens.

#### Fighting For the Ferry

SAN FRANCISCO, April 21, 3 a. m.—A determined effort is being made to save the ferry building. All the available forces are concentrated here as it is realized that with the building down that all passage from the city is blocked. At this hour the building was still safe but fires on waves above have been threatening and the wind is doing the final work of the earthquake, everything that has been shaken loose by the quaking earth is being thrown down by the wind. It has been a night of terror.

#### People Leaving

SAN FRANCISCO, April 20.—The rush of people from this city today has been tremendous. Every available craft was pressed into service. Thousands have gone to the other towns and the once populous peninsula is being deserted by every man, woman and child that can leave the ruins. The Government is lending assistance with her tug and revenue cutters.

#### Donations Pouring In

SAN FRANCISCO, April 20.—Donations continue to be added to the long list. Thousands of dollars have been subscribed for the needy and suffering. Nearly every city in the Union has taken up a list and some of the private donations runs into the millions. Food is the most needed and without it in another day there will be starvation for many who never knew the want of food or comfort. RENO, April 20.—A carload of beef cattle, donated by the citizens of Mendocino county, arrived here last evening where it was slaughtered, and the

meat barbecued and forwarded to the sufferers.

#### Mrs. Kinkead Uninjured

A letter from Mrs. Mary Wall states that she will return Saturday or Sunday morning with Mrs. Kinkead is in Fabiola hospital, but will be able to travel by the end of the week.

#### Men Shot

OAKLAND.—News from San Francisco today is to the effect that twenty men were shot down this morning by soldiers for stealing. Thefts have been growing more and more common, and the soldiers are literally obeying orders to shoot down all thieves.

#### Thousands of Refugees

All this time there are fully 150,000 refugees from San Francisco in this city and by night this number will be more than doubled. Thousands and thousands are crowding to this side of the bay on the regular hourly boats and every other kind of craft they can press into service.

#### Fleeing For Their Lives

The people of the doomed city are thoroughly panic-stricken, and are fleeing for their lives.

All the population of San Francisco's Chinatown, which was completely wiped off the map, are now on this side of the bay. Their terror, if anything, is more uncontrollable than that of the white people.

#### Terrible Street Scenes

Down about the fish markets, on Merchant Street, the scene in the streets was terrible. It seems that all the building have toppled over, burying men and horses. Horses lying dead in the streets and the wagons to which they had been harnessed were nothing but kindling wood. In the buildings men had been caught in the flying timbers and brick and the life crushed out of them.

#### Only the Mint Stands

The only building on the south side of Market Street up as far as Valencia is the United States Mint. That building seemingly has withstood the terrible conflagration, although not given a corner of a showing since the fire took possession. In appearance it being complete, neither earthquake nor fire having destroyed its outlines.

#### Relief Work in Berkeley

BERKELEY, April 20.—Extraordinary relief work for the benefit of the vast population which was rendered homeless by the San Francisco earthquake is being accomplished by a local citizens committee headed by Rev. E. L. Parsons, pastor of St. Mark's Episcopal church. The work of providing meals and sleeping accommodations for the large numbers who are pouring into Berkeley by every train from San Francisco, is being joined in by university and townspeople alike.

President Wheeler, has thrown open the grounds of the University of California to the weary refugees from the burning city across the bay and the churches have undertaken the task of supplying great quantities of food.

Meals will be served from a great tent which has been erected under the campus oaks while sleeping ac-

commodations will be provided by strewing the baseball field with a deep layer of straw. If the weather proves inclement the homeless will have the opportunity of sleeping in Harmon gymnasium. Tents will also be placed on the campus.

All the parish houses of the Episcopal city have been given over to the use of the needy and many charitably inclined citizens are giving their extra home accommodations to those from across the bay.

#### Carson Lends Assistance

Yesterday a Committee consisting of Dr. Lee, George Meyers and Attorney General Sweeney made the rounds to see what could be done in the way of a subscription to aid the sufferers throughout California. In less than two hours over two thousand dollars was secured. Before night fall this amount was added to and it is safe to say that \$3500 will be raised.

Men and women added to the fund which is still open to those who wish to add to the most worthy cause that has ever appealed to the people on the western slope.

#### Last Evenings Meeting

The citizens meeting at the Court House last evening brought out a big crowd, many women being present. Mayor Davis was selected as Chairman and District Attorney Roberts as secretary. The purpose of the meeting was stated, which is to lend all the assistance possible to the stricken State on our border. Many addressed the meeting and suggested plans which are left in hands of a committee to be appointed by the chairman.

#### Bake Bread

One of the objects of the meeting was to make arrangements to furnish bread for the sufferers. Both bakeries in this city turned over their entire output to the Committee for days, yesterday and today. Every housewife is asked to contribute. A car will be loaded today and forwarded on tonight's express train. Anyone who has blankets, any kind of food stuffs, bread or any article that offers relief will leave same at the Emporium or can ring up either Millard Catlin or Chas. Bray, who have donated their services for this purpose. There cannot be too much forwarded as over three hundred thousand people are homeless in San Francisco alone. Get your material at the car or the Emporium before 3 o'clock.

During the meeting Mrs. S. P. Davis who is the President of the Red Cross Society offered the services of the society. Later a meeting was held and this society will be called into activity.

A special meeting of the Warren Engine Company was held last evening at their engine house for the purpose of aiding their brother firemen of San Francisco who so heroically fought to save the doomed city.

The sum of \$250 was voted to be placed at the call of the Chief of the fire department of San Francisco to be used for the relief of the injured firemen and their families in want.
